

KEY FEATURES

- FST Black
- 3-Line Digital Comb Filter with Vertical Contour Correction
- Color Temperature Control (Warm/Medium/Cool)
- Black Level Expander

- MTS Stereo/SAP with DBX®
- Surround Sound
- Double Baffle Speaker System
- Audio Wattage (Total) 10 W

- 4-Item Glow Universal Remote with DVD Control
- Tri-Lingual Icon On-Screen Display
- Off/Sleep Timer
- V-Chip
- Noise Muting
- Channel Return
- Channel Lock
- Power Return
- Favorite Channel

ADVANTAGE TOSHIBA

- >> FST Black® Picture Tube delivers a vivid, high-contrast picture
- >> 3-line Digital Comb Filter with Vertical Contour Correction produces sharp, clean picture quality from RF and composite video signals.
- >> Black Level Expander improves contrast and makes the picture appear sharper and more three-dimensional.
- >> Double Baffle Speaker Design improves stereo sound reproduction without connecting additional speakers.
- >> Front Panel A/V Inputs provide maximum versatility and convenience for the consumer who wishes to easily connect video games or a camcorder.

TECHNOLOGY & BENEFITS

VIDEO

The **3-line Digital Comb Filter with Vertical Contour Correction** analyzes scanning lines to separate the Luminance (black and white) signal from the Chrominance (color) signal, without limiting bandwidth as Trap and Notch Filters do. This allows the TV to process the entire video signal, without a reduction in resolution. The benefit is that a sharp clean picture quality is produced from RF and composite video signals.

In processing, Analog Comb Filters often produce dot crawl along the edges in the picture. A Digital Comb Filter converts the analog signal into a digital signal for more accurate processing, virtually eliminating dot crawl or cross-color interference--and producing a superior picture. While digital comb filters improve the vertical edges of images, Vertical Contour Correction works with the comb filters to improve the horizontal edges for complete image enhancement.

Black Level Expander increases the black threshold level, so blacks are pure black, not dark gray. This significantly improves overall picture contrast to make the picture appear sharper and more three-dimensional.

AUDIO

Double Baffle Speaker Design are side mounted, front firing speakers designed to deliver the most stereo sound reproduction available from a television's internal speaker system. No additional speakers are required.

SPECIFICATIONS

	Picture:	FST Black
VIDEO	3-Line Digital Comb Filter with Vertical Contour Correction	x
	Color Temperature Control (Warm/Medium/Cool)	x
	Black Level Expander	x
AUDIO	MTS Stereo/SAP with DBX®	x
	Surround Sound	x
	Double Baffle Speaker System	x
CONVENIENCE	Audio Wattage (Total) 10 W	x
	4-Item Glow Universal Remote with DVD Control	x
	Tri-Lingual Icon On-Screen Display	x
	Off/Sleep Timer	x
	V-Chip	x
	Noise Muting	x
	Channel Return	x
	Channel Lock	x
	Power Return	x
	Favorite Channel	x
TERMINALS	<i>Inputs:</i>
